

# The COMPLEAT Planter & Cyderist

**Edited by B.E. Juniper & S.B. Juniper**

This little book, almost unknown to the antiquarian trade, was published anonymously in 1685. Only a handful survive. We have produced a 2nd edition, a near facsimile of the original, but with an additional twenty-seven contemporary engravings and twelve colour plates of the period. A full bibliography lists all the authorities cited by the writer.

The text is packed with practical information on planting an orchard, grafting, pruning, manuring and protecting fruit against enemies of all kinds. There is a comprehensive section on the production, casking, bottling and storage of cyder and other country wines.

The book is available - £25 plus packing and postage, from:  
B.E. Juniper - 36 Beech Croft Road, Oxford OX2 7AZ.  
S.B. Juniper - 109 Woodmancote, Dursley, Gloucestershire GL11 4AH.
