Instructions

Name

1. Please use a pencil and give two outlines for each foot; one with the pencil held vertically, the other with the pencil tilted on the same piece of paper. Wear the stockings you intend to wear with the footwear. Have another person measure you - **THIS IS IMPORTANT**. The outlines must be taken while standing. Label the separate sheets with your name.
2. Please also give the measurements below as required. For shoes give A to D. For boots give all the measurements. Measure all round the foot using a fabric tape measure and give measurement in inches. Give details of any painful areas. Don't use embossed wallpaper for your out-lines or felt tipped pens for the measurements. A fit can only be as good as you make it. Stand on a smooth level surface and use a sharp pencil. Please take measurements B & C as snugly as possible, remember they are shoes not clothes.

Body weight? Optional, but useful.

Do this on the SAME piece of paper WITHOUT moving the feet.
Please mark on the paper where the tape lies for A & B.
